

Connecting to the Children By Suzy Miller

In each of the next four modules, you'll be provided with practice questions which will address various issues related to the children. The responses you will receive will be general in nature and should not be taken as applicable to all energetically sensitive children. The questions provided are.... those that have been most frequently asked over my years of connecting with the children. You'll be asking these

questions of the CCC.

Remember to:

1. Practice and connect in the Name of The I AM Presence That You Are.
2. Connect to the CCC and write down the information you receive.
3. Remember, if you are confused or uncertain about the responses you receive, go back and ask the CCC to either help you open to receive or to clarify what you have received. There are no wrong responses.
4. You can also get support by posting your questions and experiences on the FB group.

HELPFUL HINT: It is more important that you set a clear intention to be of service, and that you trust whatever you receive is a pathway to a deeper interaction with the children. The CCC knows when you are sincere in your intent and will find all kinds of ways to support the evolution of your connection to the children.

ADDITIONAL PRACTICE:

As a means of additional practice, I would suggest that you find someone who will let you share your skills with them. Set it up so that someone you trust will let you “check in” on the questions presented here related to their child. Provide them with your responses and ask for their feedback. This is the fastest way to learn to build trust in what you are receiving and expand your curiosity about what individual children share with you!

If you bring questions or comments to the FB regarding individual children that you “check in” with PLEASE make sure to keep their identity confidential!

HERE ARE THE PHYSICAL BODY QUESTIONS TO ASK THE CCC:

1) 2) 3) 4) 5)

What is the one dietary change or requirement that benefits most energetically sensitive children?

Generally speaking, how do vaccines impact the systems of energetically sensitive children?

What is the most supportive means of enhancing communication with non- verbal children?

Why do children diagnosed with autism insist on sleeping with their parents?

Why do children on the spectrum typically lack physical coordination?

You might want to print out this supplemental document so you have the questions right in front of you when you sit down to connect with the Collective Consciousness of the Children. I’ll provide some of the most common responses to these questions in the next module.
